

## MATERIAL SALES OPPORTUNITY: 29001 ANTI-MICROCEPHALIN MONOCLONAL

### DATA SHEET INFORMATION FOR HYBRIDOMA AB11

**Antibody name:**

anti-MCPH1/BRIT1

**Protein accession number:**

AK022909

**Clone name:**

AB11

**Host species:**

Mouse

**Ig isotype:**

IgG

**Immunogen:**

Recombinant MCPH1 polypeptide

**Epitope recognized by antibody:**

Region within amino acids 1-83

**Specificity (evaluated protein cross reactions):**

Antibody recognises a single major band in WB

**Species reactivity:**

Human

**Useful applications:**

WB, IF, ELISA, IP

**Recommended positive controls (cell lysates, tissue types)**

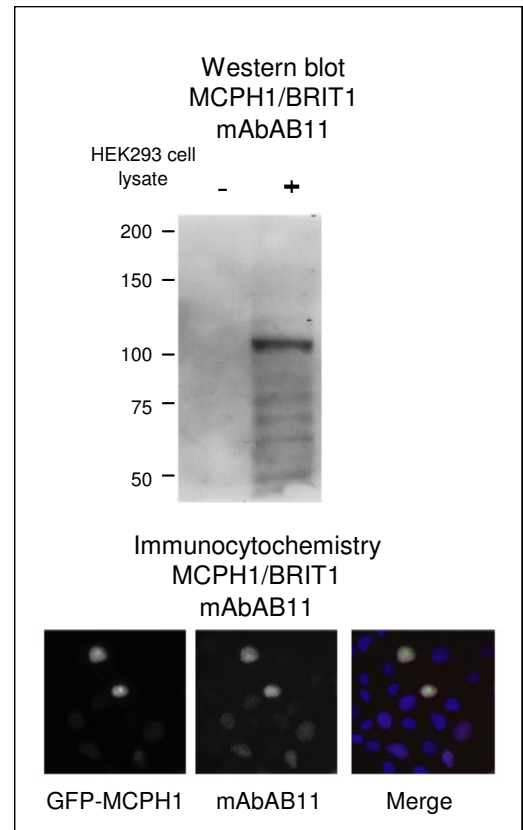

HEK293 cell lysate

**Molecular weight (native or denatured protein)**

~100kDa, apparent

**Relevant publications involving the antibody:**

None current
